

Specialist Energy Advice at the Heart of Leicester's Local Communities

Our Aim

To alleviate fuel poverty for people in Leicester.

We believe that providing free, community-based advice and support to Leicester residents will empower them to achieve lasting improvements in the management of their energy and finances.

What we Offer

Trained energy advisors and 'Money Buddies' providing clients with comprehensive support to: reduce their energy costs and usage; manage and resolve issues with their energy accounts; maximise their income through welfare benefit checks and support; and gain increased confidence with budgeting.

Service Delivery

Energywise is delivered by CALS in partnership with community-based organisations in areas of high deprivation in Leicester. One-to-one advice sessions and energy information events are held in local venues and at partnership organisations. Clients are supported by telephone/email during Covid-19 lockdown periods.

Working Together

We believe that the Energywise offering complements your existing community support provision.

We are excited about the opportunity of working with your organisation to tackle fuel poverty in your community.
