

# REACHING PEOPLE NEWSLETTER

## CEO Update By Jenny Hand

A particular welcome to new members – both full and associated this month. We have now invoiced and been following up for all the annual membership fees.

If you are experiencing financial difficulties with paying this fee due to covid do let me know directly and we will talk about how we might be able to help if membership helps you. We are going to move to an easier annual update and would very much welcome organisations paying on a monthly basis rather than year by year particularly where this helps you too.

We also say goodbye to some people – both Tony Cusack and Judy Fallon have moved on to new opportunities. In Tony's case he remains on our Board and hopes to travel in his retirement when he is allowed to escape from Leicester!

### Leadership

Many thanks to so many of you for joining the **CEO Leaders Thursday morning meetings**.  
(Time: Every Thursday 10.30am via zoom)

They have been invaluable in terms of sharing information about funding, current and developing practices, shared activities and opportunities and also driving forward the challenge to the City.

Areas we have developed and shared in these sessions sometimes including guests, have included lottery briefing, learning about second lockdown, funding opportunities including rates and discretionary funds, DMU actions to plan post lock-down, community business ideas and looking at the new normal. Support for each other and supporting staff, PPE, Black lives matters and anti-racism, sharing reading, addressing health inequalities, financial inequalities, mental health – working differently – localism – community resources and strength – specialist provision – the most important thing is probably that you are not in this alone and it helps to share. Correct me if I'm wrong here everyone who has joined us. WE hope the notes are useful to people who have not made it to a meeting.

Dementia tender – next meeting on 16 July

Apprenticeship - slides are available for the Leicester University with Leicester college
