

Recycling your laptops? We can help you achieve much more - it's an easy win-win.

SocialBox.Biz
(Laptops for the Homeless and Vulnerable Communities Initiative)

working with

Reaching People, Leicester
supported by **Leicestershire Cares**

Socialbox.Biz and Reaching People want to offer the lifeline of laptops, and skills to use them, to those most in need in Leicester and Leicestershire and we need your help.

It's easy, SocialBox.Biz saves your old, no longer needed yet still usable, laptops (and other IT equipment) from recycling and landfill, redistributes via Reaching People ensuring the most vulnerable can connect to services, support, family and friends.

It's a win win for those serious about the corporate social responsibility, reducing environmental impact and creating a lasting social impact.

SocialBox.Biz, a social enterprise, partners large IT users like businesses, councils, schools, and universities to source used equipment. It removes data using top security standards on site and at the office; upgrades it with open source software and then gets it out via charities.

Reaching People provides 1-2-1 support to a diverse group of vulnerable clients. Through our members and partners, we help at a practical level e.g. to budget and make savings; set up email and bank accounts; job search; reduce isolation etc., while building the financial and digital skills that we all need to cope with everyday life and ongoing communication challenges. However, many of our clients cannot afford laptops, some don't even have smart phones, without which, they cannot access services and we cannot deliver our support.

Sam Forsdike, C4WS Homeless Project

"It has been an absolute delight to see the stunned and excited faces of those guests we have been able to now give laptops to. This simple act makes a huge difference and we are excited to see the real changes it is making in their lives, and for their futures."

Peter Mather, BP

"We are pleased to be able to support the Laptops for Homeless initiative. Digital skills play an increasingly central role in modern life and providing access to homeless and disadvantaged individuals is important for building an inclusive society."
