

PESTLE for Leicester in 10 years

POLITICAL – Brexit, government and budgets (local and centralised), global and environmental pressures, population backlash and people’s disassociation

ECONOMIC- Rich get richer and poor poorer, Austerity, greater widening of inequality, pressure of ageing population, high unemployment, high scale digital tech, small and local coming back (linked to environmental issues)

SOCIAL – ageing, more multicultural, socially isolated – link to home working and tech.

(stop cooking! need for more co-ops – sharing/collaboration)

TECHNOLOGY – Artificial intelligence/Big data, genomes, robotics, space travel, medicine and social care based on genes, home working, tracking, cloning

LEGAL – right to die, advocacy, new laws based on Brexit and also ownership of individual records, de-professionalisation of legal services – gig law economy, ownership of data, alternative to prisons, governance and structures change, laws relating to genes, climate change laws to increase individual responsibility.

ENVIRONMENT – climate change impacts on everything – government legislation individual responsibility, decrease in resources, increased awareness, carbon footprint, more climate change activism, energy and lifestyle changes organisation and resources available. **CLIMATE CRISIS**
